

Press Release

Riskconnect, Inc.® Showcases Integrated Risk Management, Safety and Business Intelligence Software Solution in Upcoming *Risk & Insurance* magazine Webinar

Independent Risk Management Software Provider, Riskconnect, Hosts a *Risk & Insurance* magazine Webinar featuring NiSource

MARIETTA, Ga. November 18, 2009 – Independent [risk management software company Riskconnect, Inc.](#)® will showcase its latest business intelligence capabilities, combined with its Risk Management and Environment, Health and Safety (EH&S) solutions, during an upcoming webinar hosted by *Risk and Insurance* magazine in on December 8, 1:30 p.m. Eastern. Riskconnect RMIS (Risk Management Information System) and Riskconnect Incident Management solutions including EH&S, Business Intelligence, Captive Risk Management, and Occupational Safety and Health Administration (OSHA) recording solutions are currently implemented and in production for NiSource.

NiSource is a Fortune 500 company engaged in natural gas transmission, storage and distribution, as well as electric generation, transmission and distribution. The webinar will feature Tim Bucci, Director of Risk Management and Corporate Insurance for NiSource, to discuss the solutions and resulting impacts on the NiSource operations. Participants will gain a better understanding of what [Enterprise-Class Risk Management technology and service](#) can do for their organization, and how a tailored offering that matches an organization's unique needs can deliver more timely and accurate information, yielding actionable business intelligence and driving tangible results for key stakeholders.

"The Riskconnect integrated solution has already improved the consistency of our reporting and our ability to pinpoint cost drivers, quantify the cost of different types of losses and aid in initial trend analyses," Bucci commented. "Because we implemented the Riskconnect system as an enterprise-wide data management tool it acts as a central repository for our risk and safety data. This allows us to better leverage our data both horizontally across business units, as well as vertically among multiple hierarchies to allow for better risk-based decision making. We look forward to finding new ways to leverage the powerful data integration and business intelligence tools that the Riskconnect system offers."

"We are very excited about our relationship with Tim Bucci and his team at NiSource. The enterprise-class risk management technology solutions we provide are unique and first of its kind for the risk management industry," said Bob Morrell, CEO of Riskconnect. "We expect NiSource will quickly realize increased bottom-line results

(more)

from the Riskconnect solutions which span from accident investigations and root cause analysis, to analysis of trends in losses, to pinpointing incident rates by location, business unit or cost center, and an expansive library of real-time reports and dashboards.”

With heightened attention on risk management, risk management and safety departments are using advanced technology solutions to provide quantitative analysis, improving cost controls without cutting head count. Risk managers and safety professionals are well-positioned to reach across the aisle to integrate information and realize the bottom-line results senior management and key stakeholders demand. Risk Management executives and safety professionals can now provide enterprise-class, integrated risk management solutions combined with business intelligence all on one risk management work platform.

Riskconnect’s applications are built on the most powerful and secure platform available, Force.com by Salesforce.com. Riskconnect layers the platform with superior business intelligence technology and reporting capabilities.
